- 1.) The old room block at the Hampton Inn Suites for April has been deleted. (This was the easiest way for the hotel to deal with all of the reservations. It is easier to start over than individually move over 100 reservations.) If you had a reservation inside this block at the Hampton you will need to make a new reservation by either calling the hotel directly or using the online link. Information listed above. Note: you can edit the dates you want if you reserve online

If you had a reservation at the Hampton but were outside the block, you will need to call or go online and either

- a.) cancel your reservation and rebook
 - b.) change the dates of your reservation
- 2.) The overflow hotels: If you have a reservation for April for these hotels you will need to call the hotel or go online and cancel/change your reservation to the October dates. These blocks have NOT been deleted.

- 3.) **Please be patient with hotel staff when calling the hotels.** Most of their employees are furloughed and they will more than likely be overwhelmed with phone calls with very limited staff.
